※The final quota of admission will be determined by the Ministry of Education.

A. Qualification

➤ Status Eligibility

Applicants shall meet the following requirements, cited from the latest [*Regulations Regarding International Students Undertaking Studies in Taiwan*](#):

Article 2

A person of foreign nationality who has never held Republic of China (“R.O.C.”) nationality and who meets the following requirements is permitted to apply for admission to an educational institution, in accordance with the provisions of these Regulations:

1. The person has never undertaken studies in Taiwan as an overseas Chinese student.
2. The person has not been given a placement in the current academic year by the University Entrance Committee for Overseas Chinese Students in accordance with the Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan.

A person of foreign nationality who meets the following requirements and who in the immediate past has resided overseas continuously for at least six years is also permitted to apply for admission to an educational institution, in accordance with these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

1. A person who at the time of their application also holds dual R.O.C. nationality shall have never had household registration in Taiwan.
2. A person who before the time of their application also held dual R.O.C. nationality but no longer does at the time of their application shall have renounced their R.O.C. nationality with the approval of the Ministry of the Interior on a date at least eight full years before making their application.
3. A person referred to in either of the preceding two subparagraphs shall meet the requirements stipulated in Subparagraph 1 and Subparagraph 2 of the previous paragraph.

A foreign national who was selected by a foreign government, organization, or school to study in Taiwan in accordance with the Education Cooperation Framework Agreement, and who has never had household registration in Taiwan may be given exemption from the restrictions set out in the preceding two paragraphs if the competent education administrative authority gives approval.

The periods of six years and eight years stipulated in Paragraph 2 shall be calculated using the starting date of the semester (February 1, or August 1) as the end date of the period.

The term “overseas” used in Paragraph 2 refers to countries or regions other than the Mainland Area, Hong Kong, and Macau; the term “reside overseas continuously” means that an international student has stayed in Taiwan for no more than a total of 120 days in each calendar year. When calculating the number of consecutive years spent overseas, if the initial or final year of the period is not a complete calendar year, any time spent in Taiwan in the initial or final year must not exceed 120 days. However, time that a person has spent in Taiwan is not subject to this restriction and it is not counted when calculating how long they were in Taiwan in a particular year if the person has documentary proof that they:

1. attended an overseas youth training course organized by the Overseas Compatriot Affairs Council or a technical professional training program accredited by the Ministry of Education;

2. spent a total period of less than two years undertaking Chinese language classes at a Chinese language center at a university or tertiary college which has Ministry of Education approval to recruit students overseas;

3. spent a total period of less than two years in Taiwan as an exchange student; or

4. spent a total period of less than two years undertaking an internship that they came to Taiwan to undertake with the approval of the designated central competent authority.

A person who held both foreign and R.O.C. nationalities and applied for annulment of their R.O.C. nationality before the date of effect of the February 1, 2011 amendment to these Regulations may apply for admission as an international student in accordance with the provisions in place before the amendment and is not subject to the restrictions set out in Paragraph 2.

Article 3

An applicant of foreign nationality, who is eligible for permanent residence in Hong Kong or Macao, who has never had household registration in Taiwan, and who at the time of their application has resided in Hong Kong, Macao, or elsewhere overseas continuously for at least six years may apply for admission in accordance with the provisions of these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous article apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period of continuous residence referred to in the previous paragraph.

A person who was formerly from the Mainland Area and who has foreign nationality and has never had household registration in Taiwan, and who at the time of their application has resided overseas continuously for at least six years may apply for admission to an educational institution, in accordance with the provisions of these Regulations. However, a person who plans to apply to study in a university department of medicine, dentistry, or Chinese medicine must have resided overseas continuously for at least eight years.

The term “resided [...] continuously” in the preceding paragraph means that a person did not spend more than a total of 120 days in Taiwan in each calendar year. However, this restriction does not apply if a person can present documentary proof that any of the circumstances listed in Paragraph 5, Subparagraphs 1 to 4 of the previous article apply. The time that they spent in Taiwan in the ways listed is not counted when calculating the period that they resided continuously overseas referred to in the previous paragraph.

The periods of six years and eight years stipulated in Paragraph 1 and in Paragraph 3 shall be calculated using the starting date of the semester (February 1, or August 1) as the end date of the period.

The definition of “overseas” given in Paragraph 5 of the previous article also applies, *mutatis mutandis*, to Paragraphs 1 to 4.

Article 4

An international student applying to study at an educational institution in Taiwan in accordance with the provisions of the two previous articles is limited to only applying once. If a student wants to continue studying in Taiwan, their application shall be handled in the same manner as the admission procedures for domestic students. However, this requirement does not apply to an international student in either of the following circumstances:

1. If an international student is applying for admission to a master's degree or higher level program after completing the course of study at the educational institution to which they originally applied, the university to which the student is now applying shall handle the application in accordance with its regulations;
2. If an international student applied to come to Taiwan to undertake a bachelor's degree or lower level program in Taiwan and after coming to Taiwan stayed for less than one year for some reason then discontinued their studies or forfeited their student status, that student may lodge another application to come to Taiwan to study, but only one such re-application is permitted.

If an educational institution in Taiwan where an international student was studying considers that their conduct or academic performance was unsatisfactory, or if the student seriously violated any ordinances or the regulations of the educational institution and the circumstances were serious and as a result, in accordance with the provisions of its regulations governing student awards and penalties had to discontinue their studies or forfeited their status as a registered student, the student is not permitted to re-apply to study in Taiwan on the basis of the provisions of the previous paragraph.

Declaration Form

1. I hereby certify that I understand Article 2 of <Nationality Act>.

【According to Article 2 of Nationality Act of the R.O.C.】

A person shall have the nationality of the R.O.C. under any of the conditions provided by the following Subparagraphs:

 - (1) His/her father or mother was a national of the R.O.C when he/she was born.
 - (2) He/she was born after the death of his/her father or mother, and his/her father or mother was a

national of the R.O.C at the time of death.

(3) He/she was born in the territory of the R.O.C, and his/her parents can't be ascertained or both were stateless persons.

(4) He/she has undergone the naturalization process.

The provisions of Subparagraphs 1 and 2 in the preceding paragraph shall be also applicable to those under the age of 20 at the time of the amendment and implementation of this Act on February 9, 2000.

2. I hereby declare that I have met the requirements indicated in the *Regulations Regarding International Students Undertaking Studies in Taiwan* issued by the Ministry of Education of R.O.C..

3. I hereby declare that I am qualified for at least one of the five requirements:

(1) At the time of application, I am holding a foreign citizenship, and have never held R.O.C. citizenship, and meet the following 2 requirements:

- i. I have never undertaken studies in Taiwan as an overseas Chinese student.
- ii. I have not been given a placement in the current year by the University Entrance Committee for Overseas Chinese Students in accordance with the *Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students* in Taiwan.

(2) At the time of application, I am holding a foreign citizenship and citizenship of R.O.C., Taiwan, but have never had the household registration in Taiwan, and have been living in a foreign country continuously for no less than 6 years (no less than 8 years needed for applications to School of Medicine, School of Dentistry and School of Post-Baccalaureate Medicine), and have not studied under the status of overseas Chinese students, and have not been given a placement in the current year by the University Entrance Committee for Overseas Chinese Students.

(3) At the time of application, I am holding a foreign citizenship and once had citizenship of R.O.C., and have obtained documents issued by Ministry of Interior indicating that I have given up R.O.C. nationality for at least 8 years, and have been living in a foreign country continuously for no less than 6 years (no less than 8 years needed for applications to School of Medicine, School of Dentistry and School of Post-Baccalaureate Medicine), and have not studied under the status of overseas Chinese student and have not been given a placement in the current year by the University Entrance Committee for Overseas Chinese Students.

(no less than 8 years needed for applications to School of Medicine, School of Dentistry and School of Post-Baccalaureate Medicine)

(5) At the time of application, I am a former citizen of Mainland China and hold a foreign nationality, having no history of household registration record in Taiwan, and at the time of application, has resided overseas continuously for no less than 6 years. (no less than 8 years needed for applications to School of Medicine, School of Dentistry and School of Post-Baccalaureate Medicine)

4. All documents I have provided (including qualifications, passport and other relevant documents whether in original or photocopy) are authentic and valid. Should any of the documents is found of forgery or in violation of any University's regulation, my admission to KMU will be revoked, and no proof of

acceptance will be issued.

5. The proof of the highest level of education attained that I have provided is valid and legally recognized by the country from which I graduated. The diploma provided is equivalent to which is awarded by certified schools in Taiwan. If this is found to be fraudulent (including those through alterations and forgery) and in violation of any regulation, my admission will be refused, my student status will be revoked, and no transcript or diploma will be issued.
6. I have never been expelled from any university or college in Taiwan under these circumstances (with drop-out records due to failure in conduct grades, academic grades, or being indicted guilty by the criminal law, or seriously violated any ordinances or the regulations of the educational institution and as a result, had discontinued the study or forfeited the status as a registered student). Should I am found of breach any of the regulations, my admission will be canceled and my student status will be revoked.
7. If I apply for the initial household registration in Taiwan or acquire naturalization or restoration of R.O.C. citizenship during the period of my study, and thus lose my status of foreign student, I will accept the discontinuation of my student status by the University (Students whose application was handled in the same manner as the admission procedures for domestic students and who apply for naturalization to acquire the nationality of the R.O.C. in accordance with Subparagraph 1 to 3, Paragraph 1, Article 4 of the *Nationality Act* is not subject to this requirement.).
8. I have read all the regulations in the Application Guidelines and abide by rules mentioned above.

Note:

According to the regulations of *Regulations Regarding Study and Counseling Assistance for Overseas Chinese Students in Taiwan*:

(1) The term “overseas Chinese student” refers to a student of Chinese descent who has come to Taiwan to study, who was born and lived overseas until the present time, or who has been living overseas for six or more consecutive years in the immediate past and obtained permanent or long-term residency status overseas. Note that for those applying to study in the departments of medicine, dentistry, or Chinese medicine at Taiwan universities, the minimum required number of consecutive years of overseas residency is eight years.

(2) The term “overseas” refers to locations or countries outside of Taiwan, mainland China, Macao, and Hong Kong. The “consecutive years of residency” is defined as Overseas Chinese Students staying in Taiwan for less than 120 days per calendar year. If the calculated calendar year is not one complete calendar year, their stay in Taiwan should not exceed 120 days within the calculated calendar year period.

I, applying for admission Academic 2023-2024 to Kaohsiung Medical University, have never possessed an overseas Chinese student status at the time of the application. **I authorize KMU to verify all of the above information provided.** After being admitted into KMU, if any of the information provided are found and proved to be false, I have no objections in accepting the consequence of having my student status revoked.
